

Jean Shepard, Look At Mine

If you think her eyes're brighter look at mine
If you think her lips are softer look at mine
If you think her love is stronger don't you wait around much longer
Stop awhile take a time and get yourself to my place and look at mine
If you think her clothes're better look at mine
If she writes you nice love letters look at mine
If you think her heart is willin' don't you wait to make a spillin'
Stop awhile take a time and get yourself to my place and look at mine
Look at mine look at mine look at mine I've got everything you need all the time
If you think her smile is sunshine look at mine
If you think her looks are so fine look at mine
If you think her future's better just forget the day you've met her
Stop awhile take a time and get yourself to my place and look at mine
If you think her smile is sunshine....
Hey look at mine look at mine look at mine look at mine look at mine look at mine
