

Jean Shepard, Passing Love Affair

Be sure before you say I love you that no other love you share
I love too deep to have your thanks dear am I just a passing love affair
Don't feel my hopes and watch them tumble tell me how much you really care
Tell me the truth although it hurts me am I just a passing love affair
[fiddle - piano - guitar]
I know there was someone before me to end it up in deep despair
Don't make me love you then desert me am I just a passing love affair
Well I'd be like your other sweethearts whose love's not blue will you still care
Or will I find a love I'd hope for it's just a passing love affair
