

Jean Winner, Alive And Kicking

If I made you a star would you like to be one
shining all night long waiting for the day to come
if I made you a star would you like to have one
would you come with me and have some fun

My god
it's been a while since I've seen you alive and kicking
My god
it's been a while since I've seen you alive...alive
My god
it's been a while since I've seen you alive and kicking
My god
it's been a while since I've seen you alive ... alive
My god

If I gave you a call do you think you'd answer it
I would let you know that I think you're superfit
If I stood at your door do you think you'd let me in
take a walk with me, I will take you all the way

My god
it's been a while since I've seen you alive and kicking
My god
it's been a while since I've seen you alive..alive
My god
it's been a while since I've seen you alive and kicking
My god
it's been a while since I've seen you alive...alive
