

# Jeanette, Burning Alive

You are  
A quite common guy  
That's why  
I will have to try  
[oh no!]  
To be  
The woman you need  
To tell  
How much my heart bleeds  
I'm just a human being, it seems  
That you just fell in love to live my dreams

Burning alive  
Don't leave tonight  
I'm burning alive  
An' you're not allright  
Stay right here with me  
Burning alive

I know  
Can't use no disguise  
So lost  
That ain't no surprise  
I push an' shove my way around  
But I must really fear  
We're goin' down

Burning alive  
Don't leave tonight  
I'm burning alive  
An' you're not allright  
Just burning alive  
I know you're in doubt  
I'm burning alive  
It's makin' me scream  
It's makin' me shout

I must  
Make you feel OK  
'cause we'll  
Be losin' your way  
I'm just a human being, it seems  
That you just fell in love to live my dream

Burning alive  
Don't leave tonight  
I'm burning alive  
An' you're not allright  
Stay right here with me  
Burning alive
