

Jeanette, No Eternity

I know that I will not be here just on my own
And pray that you cannot leave me here all alone
I can't give you a reason
But I know I'll be missin'
The shades of yesterday

For no eternity
All places I will be
For no eternity
All places I will be
Will change my life
It's so much different oh baby you will see

So I will grow to be one day the stronger one
I'll keep you in my heart 'cause you are in this song
You will be stayin' with me
Even though you let me free
Only love remains

For no eternity
All places I will be
For no eternity
All places I will be
Will change my life
It's so much different oh baby you will see

I will be on your mind
And I won't use up your time
But I see it's gonna be
Something I need

All places I will be
Will change my life
Oh no
For no eternity
All places I will be
For no eternity
Oh yeah
Will change my life
It's so much different oh baby you will see
