

Jeannie C. Riley, Wherever You Are

See the moon above the mountain watch the stars light up the sky

Oh wherever you are darling do you feel the same as I

Tell your heart you know that I love you and I never see us to care

Oh wherever you are my darling if I could I would be there

[guitar - trumpet]

Do you wherever long to see me do you wherever feel this blue

Oh wherever you are daling do you know that I missing you

If I could feel your arms all around me if I could hold you close to me

Oh wherever you are my darling there my heart will always be
