

Jeans, Asi me gusta(That's the way)

That's the way, i like it
That's the way, i like it
That's the way, i like it
That's the way, i like it
Levantate, ven a bailar, embrujame
Con tu mirar
Quiero salir a reventar y disfrutar
Cada momento juntos porque
That's the way, i like it
That's the way, i like it
That's the way, i like it
That's the way, i like it
Despiertate, relajate, preparate
La vida es diversion
Liberate de la presion
Y ven aqui
Y baila esta cancion
That's the way, i like it
That's the way, i like it
That's the way, i like it
That's the way, i like it
Es viernes ya, no mas tension
Y en el coche una buena estacion
Lugar ideal para ligar
No importa que salga de nuevo el sol
That's the way, i like it
That's the way, i like it
That's the way, i like it
That's the way, i like it
I like it
I like it
Apagame y prendeme
No me seduzcas
Y baila de una vez
Proyectame en tu interior
Desgarrame y quedate conmigo por que
That's the way, i like it
That's the way, i like it
That's the way, i like it
That's the way, i like it
That's the way, i like it
That's the way, i like it
That's the way, i like it
That's the way, i like it
