

Jebediah, Skin

And the day that I left
Felt my heart leave my chest
When you said we were only friends, hanging out
What was I supposed to do?
Except swallow my pride and say, "That's cool."
But I'm a fool - I want you.

I guess I always knew I would
Like you too much for my good.
It gets me when I tell you that but it's true.
It's so true, it's so true.
It's so true, it's so true.

And the night that we kissed
We were both pretty pissed
But I still knew how good it felt, but did you?
Now I'd do anything to get you out from underneath my skin.
Wishful thinking - don't want to

I guess I always knew I would
Like you too much for my own good.
It gets me when I tell you that but it's true.
It's so true, it's so true.
It's so true, it's so true.

Yeah...

I guess I always knew I would
Like you too much for my own good.
It gets me when I tell you that but it's true.
It's so true, it's so true.
It's so true, it's so true.

It's so true, oh, oh, oh yeah.
