

# Jedi Mind Tricks, Beyond The Gates Of Pain

[Sean Price]

Yes, just infest, the best is I  
Leave you, stretched on the sket, in Bedford-Stuy  
With a, lead to eject, but I bet it's I  
Did that, like a rat, you testify  
Niggaz like what's the matter with Sean?  
I'm like nothing, just thinkin' of a verse  
That can shatter the song, foreign bitches  
Know the stamina strong, 20 g's for the pictures  
Stay in the country, so I married the mob  
Don, thirty-two, but the game is 12  
And the fifth for these funny niggaz; Dave Chappelle  
When Run-DMC was fuckin' Raising Hell  
I was on the run from d's, these raised in hell  
Kinda broke, couldn't raise the bell  
Caught by many, broke two fuckin' arms, son, engage for bail  
Beat the case, got my big gauge, back as well  
With rap, you can sing such amazing tales, nigga  
Ya'll niggaz bust my web, heat pop  
Niggaz cut ya dreads, cuz ya'll scared  
Rockin' and rollin', guns and roses  
Pockets is swollen, son is holding  
Sean P, I'm the master of ceremony  
That's blastin' at every phony ass rapper that ever know me  
Niggaz act like they ready for war  
Get slapped with the tool, wake up bitch, get ready for school, one

[Chorus 2X: Vinnie Paz]

We in this game for the money and the long life  
Whether we battle with the gats or it's all mics  
We can rumble with the bats or the long pipes  
Vinnie Paz, it's a wrap, with Sean Price

[Vinnie Paz]

I'm more powerful than Gargamel, guard ya grill  
And you'll be starved and killed  
It's hard to build, when God revel  
That you eat lard for meals  
So as the saga builds, we need raw shit  
We need EPMD to drop more shit  
The hardcore shit, bang out, bust a gat  
The '84 shit, how they now hustle crackc  
We build and we destroy until the sun rock  
Until we hear the sounds of the last gun shot  
But I'mma ride until the wheels falls off  
Til the high in these last few pills wear off  
You failed with frost, pussy rap, filled and crossed  
Sellin' bags of that raw shit filled with salt  
I kill ya thoughts, with a nine MA eagle  
Make me sick to my stomach, like ya'll gay people  
I'mma slay evil, that's what Allah likes  
Vinnie Paz, Jedi Mind Tricks, Sean Price

[Chorus 2X]
