

Jedi Mind Tricks, Butcher Knife Bloodbath

"Jus Allah, Verse 1"

I'm entertained by the pain, moth to a flame, guarding over your charred remains, hard to explain to
everyday i pray up this sleigh damn pray on display, cut the sling lay where they met, tell them i ain't

(Chorus)

(I give it to you real raw), you try to tackle me you couldn't make me fall, forget the microphone you

"Vinnie Paz, Verse 2"

The bullet is quicker than lightspeed, gates of midian, nightbreed
Any one fucking around with Vinnie he might bleed
Hell is hot and that's where the homing device lead
The body or the head only thing my knife need
I don't need to speak Vinnie's philosophy known
Y'all are weak and talk sloppy like ???
Blood shed and war anti-christ the prophecy shown
I tried to tell you that the Bush's were possibly cloned
You should know about distortions of lessons in college
About the water-fuel cell, it's oppression of knowledge
I don't call that motherfuckin professor a scholar
I call him a profiteering liar obsessed with the dollar
Why we in Iran if all that we want is Osama?
Why we in a jam when all that we want is Obama?
Bush had you thinkin we at war because he asked God
Then blew up two fuckin buildings in our backyard
Blat blat blat
