

# Jedi Mind Tricks, Sacrifice

[Intro]

You've watched so many people die...  
You've watched so many people die...

[Antz: movie sample.]

Sacrifice- to some, it is just a word. to others it is a code  
{yo, Ikon the fuckin' Hologram}  
What matters is the colony.  
{take ya'll motherfuckers to war, what what}  
He's willing to live for the colony,  
to fight for the colony, to die for the colony  
{yo, yo, yo}

[Verse 1: Ikon]

Witness the art of combat  
the center is where the bombs at  
It's illegal for the feeble to see beyond that  
Upon that, cyanide gases, sentinel dent through ya ventricle with nine axes  
Time lapses, we on with, brutal and terrible conflict bomb shit  
You gone quick- on a mission to meet your savior  
A pitchfork through your bitch-heart [in] Castlevania.  
Slayin ya'- we blaze all men  
And storm through Allah battlefield with suede Timbs  
The ra-ven {raven screech} who made men eyeless  
Blinds evil, like a needle through the eye of Osirus  
My vibrance will span to Negril  
With the violence of Hamburger Hill, to kill  
What, what

{unknown sample}

to the depths I dive- I dive

{scratching of the word "Sacrifice" as said by Big Pun in "You Ain't A Killer"}

{Verse 2: Jus Allah aka Megatraum}

The grains of my fingerprints rub against mics like match flints  
Burn slow like Dutchmaster hits  
Enter trenches of arms, the Paragon spawn  
Your body's carried and dropped like surrogate moms  
Sad realities for those that battle me  
Find enemy beats, and wake em' up with the force of alchemy  
A jaded man, never follows the Lord's plan  
Rises for sacrifice like Isaac to Abraham  
Expect wideness from Heaven's excels  
Coming outta my shells like metal projectiles  
Connect soldiers by straight edges, you're left endless  
Severed by the line then bisected your necklace  
Dreadnaut leaving treadmarks from lead shots  
Silence your voice box, with infrared dots  
Your optics, forced to watch raw torture  
Therapeutic, combining your pores with iron straws

{unknown sample}

to the depths I dive- I dive

{continuous scratching of Big Pun saying "Sacrifice" throughout the end}

{Ikon} - talking

You know the fuckin deal  
The hunter has now become the hunted, motherfucker  
Jedi Minds, severing your spine  
What's the fuckin deal, what's the fuckin deal  
You will be consumed by your own fire, motherfucker

{more Antz samples}  
I know you will all do your duty

{lkon}  
Jedi Minds banging you in the face  
2G's  
Fuck all y'all

{Antz sample}  
I am proud to send you into battle...
