

Jedi Mind Tricks, The Winds Of War

"I'm setting the example, and what I've done in gonna be puzzled over
And studied, and followed, forever." - the movie "Se7en";

[Ikon]

Prepare for the verbal war

The hologram advanced psychical form

Manifesting universal mind into the lore

Travelling lands, I stand on sands of chemical vibration

The math kings of light departed in wrath

So where you gonna stand when the Elohi returns

Seven great sages throughout the ages say you burn

It's my turn to shine

I redefine the crystalline-biological structures implanted in your mind

So I find the deaf, dumb and blind

And bless 'em with science and leave the blind once behind

Descending into big balls of mass, in the form of rain

The Verbal Hologram brings pain

So rearrange disagreeable ways that brought you the darkness

Take hold, and rip out your soul from your carcass

And rise away like a sham

The Verbal Hologram is the verbal avalanche

One last chance to re-plan and over-stand

Before the Hologram sends your camp to Holy Land

So ask your man, when he returns to where I sent him

The plan was to kill God and re-invent him

Practicing Black Magical tactics like voodoo

Attacking like the seven deadly warships in the Guru

(Hook x 3)

[Hook: sample of Masta Killa from "Triumph"]

Giving sight to the blind

The dumb are mostly intrigued by the drum (intrigued by the drum)

[Ikon]

I bring forth the mighty Udamiu, the powerful Sapagra

The darkening behind you, the biblical omega man

The Ashtar command, I came to bring mortals the veractory gland

So here I stand on the Four Corners of Stonehendge

Travelling through portals, the thunderbolt of battles, the lord of the immortals

The zeal of the seven, the rising of the demon

The lost books of the Bible and forgotten books of Eden

The heathens, who burn like perrhosis

Handed the Holy tablets, like Moses

The blackening of roses will send you to the edges of the land

The emerald tablets of Thoth the Atlantean

The hands of the mighty line of Judah

Will throw you through the triangular portals of Bermuda

Exploring the Hologramic aspects of consciousness

For aliens truth devour, orthodox first relativistic equations for power

The shower of acid rain brings pain to the land

You cannot kill what you cannot see

The Verbal Hologram

(Hook x 5)
