

Jedi Mind Tricks, When All The Light Dies

[Intro-Vinnie Paz]

Yeah, Jedi Mind

Vinnie Pazienza, the Enemy of Mankind

Servants in Heaven, Kings in Hell

Horrorcore, yeah, walk with me

[Verse 1-Vinnie Paz]

I pop a pill and zone, my voice alone 'll fuckin' kill your bones

The AR-15 beam leave you still as stone

I'm workin' twenty-four-seven while you chill at home

I'm on the block with my people where the killers roam

I'm in a killer zone, where police can trap me

I'm ready to go to war with them like we Iraqi

We in the last days, only darkness passes

No more pure air, only bloody money ashes

Yeah, you need to recognize the God is sick

'Cause I was born inside of Egypt near the Gaza Strip

Don't make me cock the fifth, and put the flame to him

And thug it out like the Israeli's and Iranian's

Remember when I put the pen to pad

When I heard "Style Wars" by Lakim Shabazz

Then in the lab, everything was constructed with Stoupe

And y'all know that no one fuckin' with us as a group

[Chorus-Shara Worden]

When All the Light goes out where will you be?

When the darkness comes what will you see?

(When the lights go out)

When All the Light goes out where will you be?

(When the lights go out)

When the darkness comes what will you see?

[Verse 2-Vinnie Paz]

I'm a cannibal corpse, .38 snub splatter your thoughts

Peel your skin off of your body like animal cloth

I'm the reason for the Carthage in Hannibal's force

I'm the reason for the carnage in parable's lost

And I'll put the heater right where your lungs at

And none of y'all would be around if I could bring Pun back

You want the horrorcore Vinnie? He brung that

Along with the .44 militant gun rap

I break bread with the brothers I trust

'Cause I know that if I'm ever in some trouble, they bust

Could never be us, we too raw for the rap now

Anybody with a tape recorder can rap now

I pull a twelve gauge shotty, you back down

And then the last thing you hear is the gat sound

From the city where they framed Mumia

We gonna break him out, run up with them flames and heaters

[Chorus-Shara Worden]

When All the Light goes out where will you be?

When the darkness comes what will you see?

(When the lights go out)

When All the Light goes out where will you be?

(When the lights go out)

When the darkness comes what will you see?

[Verse 3-Vinnie Paz]

Yeah, yeah, I carry heavy fifths, I'm a biological terrorist

If you ain't been in war, then you don't know what terror is

You try to help people but do nothin' like therapists

It's basic rules to the game, cousin, you never snitch

Or you can see the type of lead that my Beretta spits

Or send you through the torture chamber and behead the bitch
Yeah, I'll put your body to the blades and choppers
And teach you about the disruptive symbol of chakra's
If you believe what they tellin' you, the beast and them won
That's why I speak about survival and need for a gun
I stand for what them thugs is reppin'
But they don't know the government is usin' drugs as weapons
And drug injections, was taught by the prophets before
About the cavalry of shadowy profits of war
It's hard of grip, so I spit it at different degrees
But the inner earth holds more water then seas

[Bridge-Shara Worden]

Who's gonna save you When All the Lights go out
It's time to reconcile, how you gonna go, how you gonna go?
When the Lights go out, When the Lights go out
When the Lights go out, how you gonna go? Oh, oh, oh, oh, o
