Jeff Bates, Pull Me Out Of The Water

Girl, don't leave me standin here goin out of my mind
I just need some reassurance that your still mine
You might think I'm crazy, I'll admit that it's true
But dont have me put away, cause I&quot;m crazy about you

Chorus
Pull me out of the water cause I'm sinkin
Open my eyes so I can see
Take me by the hand cause I'm fallin
Open the door and set me free
Pull me out of the water cause I'm sinkin
Tell me everthing's gonna be alright
Lay me down and make sweet love to me girl
I just need to know you love me tonight

Well, I saw you lookin close at him at the party last night
And I wondered what it was about him that caught your eye
During my imagination I saw my life without you
And it scared me half to death just the thought of losing you

Chorus

Tell me everthing's gonna be alright
Lay me down and make sweet love to me girl
I just need to know you love me tonight
