

Jeff Beck Group, I Got To Have A Song

Got no place to be, no ones needing me
My girl just said were through
Love was here to stay, only yesterday
Today my world is blue
So, show me to where theres music
Show me to where theres music
With music, I might just go home
I got to have a song
To keep me going on
I, I got to have a song now, now
Had a happy home, now its turned to stone
Kitchens cold and bare
She cooks all day for me, I hurry home to see
But I know she's not there
So, show me to where theres music
Show me to where theres music
With music, I just might go home
I got to have a song
To keep me going on
I, I got to have a song baby
Show me to where theres music
Show me to where theres music
With music, I just might go home
I got to have a song
To keep me going on
I got to have a song baby
Got no place to be, no ones needing me
My girl just said were through
Love was here to stay, only yesterday
Today my world is blue
So, show me to where theres music
Show me to where theres music
With music, I just might go home
I got to have a song baby
To keep me going on now, now
Somebody please, help me get a song
Oh I got to have, I got to have, I got a have, I got to have a song now
Yeah, yeah, yeah
To make me feel so good
To make me feel alright
