

# Jeff Carson, It Wouldn't Kill Me

Last night after dinner  
As I read the evening paper  
I looked up to see a look  
Of sadness in her eyes

I asked her what was wrong  
She sighed and said its nothing  
But something in that nothing  
Made me realize

Chorus:  
It wouldn't kill me  
To show her that I love her  
It wouldn't kill me  
To make her feel alive  
I could take more time to tell her  
It wouldn't kill me  
Like it would if she ever said good-bye

I don't know what gets in me  
Not to take these precious moments  
And share them with the only love  
That makes them worth while  
I get so caught up in other things  
When the only thing that matters  
Is the way she leaves me breathless  
With the beauty of her smile

Chorus:  
It wouldn't kill me  
To show her that I love her  
It wouldn't kill me  
To make her feel alive  
I could take more time to tell her  
It wouldn't kill me  
Like it would if she ever said good-bye
