

# Jeff Healey, How Much

One candle burns brightly,  
It flickers and it almost dies like me  
Alone against the wind  
But this moment has magic,  
It's keeping that flame alive as we hold on to the night  
Well, there'll be another day,  
We'll have another chance but not like this

No, nothing can compare to the way that I feel right now  
Do you feel the same way as I do, then tell me how  
How strong do you want it to be?  
How do you want to hear it from me?  
How long, baby, tell me, how deep?  
How much love do you want from me?  
Ooh

Somebody must have scared you,  
Left you wounded and afraid to love again  
You are just like me  
But nobody's ever held me so close, so desp'rately,  
And I never held anybody like you  
How much love do you want from me?  
How much love do you want from me?  
Ooh

How much love do you want from me, yeah?  
How strong do you want it to be?  
How do you want to hear it from me?  
How long, baby, tell me, how deep?  
How much love, do you want from me?  
Ooh

How much love do you want from me?  
Ooh
