

# Jeff Scott Soto, By Your Side

Another night has gone  
I feel I want 2 do it all again  
I'm hoping u feel the same

Years have past since we were last 2gether  
U vowed u'd be there till the end  
I hear u call my name

Through the dark of the night  
2gether we will fly  
I'll never let u go  
I'll never say goodbye

2morrow I'll be gone  
The memories of u I celebrate  
Until we meet again

Words cannot express my feelings  
A thousand times I'd like 2 say  
I'll sing u many thanks

Through the candlelight  
2gether we will fly  
I'll never let u go  
I'll never say goodbye

So do u wanna stay the night?  
I will devote 2 make u feel alright  
I'll never let u down  
I'm always gonna be around

As I look into your eyes  
I send a vow 2 make u feel alright  
I'll always be the 1  
& Until the morning sun comes again  
& Bears its' divide I'll be by your side

& Through the dark of the night  
2gether we will fly  
I'll never let u go  
I'll never say goodbye

So do u wanna stay the night?  
I will devote 2 make u feel alright  
I'll never let u down  
I'm always gonna be around

As I look into your eyes  
I send a vow 2 make u feel alright  
I'll always be the 1  
& Until the morning sun comes again  
& Bears its' divide I'll be by your side
