

# Jeff Timmons, Whisper That Way

Come a little closer baby  
Give me your hand  
Tell me things that only I can hear  
And understand

About the first time  
That I gave you a glance  
Or how it feels inside  
To share an endless dance

All that I dreamed  
Has come to life in you  
You're all that I need  
And all that I know to be true, oh

(Chorus)  
The words you say  
Take me away  
I love when you whisper that way  
The special days  
Will never fade  
All that I want is to stay  
When you whisper that way

Do you remember when  
we first kissed  
And how you sparkled  
in the moonlight  
When I touched your lips

And let me tell you  
When we made love  
I knew that instant  
you were sent from above

All that I dreamed  
Has come to life in you  
Oh Baby  
And all that I need  
Can be found  
Right there in you, Whoa

(Chorus)  
The words you say  
Take me away  
I love when you whisper that way  
The special days  
Will never fade  
All that I want is to stay  
When you whisper that way

Somethin's got a hold on me  
Feels so right I can hardly breathe  
And I don't wanna wake from this dream  
It's so easy to see  
What you mean to me, Oh

(Chorus)  
The words you say  
Take me away  
I love when you whisper that way  
The special days  
Will never fade  
All that I want is to stay

When you whisper that way

(Chorus)

The words you say

Take me away

I love when you whisper that way

The special days

Will never fade

All that I want is to stay

When you whisper that way
