

# Jefferey Gaines, Always Be

I know it's hard to count on anything  
Cuz no one knows just what tomorrow brings  
Still here we are, we've shared so many years  
We've come this far, there's nothing to fear

You will see  
You and me  
Will always be  
You will see  
You and me  
Will always be

I know this world can sometimes bring you pain  
Believe me, girl, it's gonna be okay  
You ask me how it is that I'm so sure  
Cuz with every day I love you more

You will see  
You and me  
Will always be  
You will see  
You and me  
Will always be  
Me and you, you and me  
You know it's true  
That you and me will always be

I know this sounds too good to be true  
But I devote my whole life to you  
And if my life should end, my love goes on  
And you will always have this song

You will see  
You and me  
Will always be  
You will see  
You and me  
Will always be
