

Jefferson Airplane, Run Around

One time ,run around,
Dont look and for me to go your way
You left me here with out anything to love
Ill tell you
Ive.. had. enough of your hands running round my brain,
And Ive.. had have enough of the way that you cause me pain
So slow down, run around your other side,
Walk with me instead tonight
We could be near like we use to be before
Ahh girl, I.. need more of the times that you turned me round
And .Theres no time to turn away love Ive found
So couldnt we forget about today , start again from where we were
We use to dance out to space without a care
And our laughter come ringing and singing we rolled round the music,
Blinded by colors come crashing from flowers that sway as you stay here by me .
Slow down, run around
Your love is soft
Walk with me instead tonight
We could be near like we use to be before
Ahh girl, ..I need more of the times that you turned me round
And ..theres. no time to turn away love Ive found
Run around
Lifetime run around
Dont look back and for me to go your way
You left me here with out anything to love
Ill tell you
Ive ..had enough of your hands running round my brain,
And Ive had have enough of the way that you cause me pain
Well run around.
