

# Jefferson Starship, Light The Sky On Fire

Go on identify it  
If you want to  
What I would really  
Like to know

Will you light the sky on fire?  
Will you light tonight like  
You did the night before, baby?  
You could take me higher  
Than the diamonds in the sky  
Take me, light in the sky and  
We'll vanish without a trace  
In a cigar-shaped object

Temples and pyramids they seem  
Know all there really is to know

Will you light the sky on fire?  
Will you light the sky  
On fire again tonight?  
You can take me higher  
Than the diamonds in the sky  
Take me, we'll vanish without a trace  
In a cigar-shaped object  
(Vanish without a trace)

On the pyramids is a legend  
The great god Kopa Khan who  
Came from the stars and vanished  
And the legends say he will come  
Back again someday  
Someday (someday)

Will you light the sky on fire?  
Will you light tonight like  
You did the night before?  
You could take me higher  
Than the diamonds in the sky  
Take me, light in the sky and  
We'll vanish without a trace  
In a cigar-shaped object

Yes, I would really like to know  
What are they watching us for?  
Yes, I would really like to know

Will you light the sky on fire?  
Will you light the sky like  
You did the night before?  
You could take me higher  
Than the diamonds in the sky  
Take me, we'll vanish without a trace  
In a cigar-shaped object  
Vanish without a trace  
Vanish without a trace

Come on, come on, come on  
Come on, come on  
Let's vanish without a trace  
Come on, come on, come on  
Come on, come on  
We'll vanish without a trace
