

Jeffree Star, Heart Surgery (Isn't That Bad)

I don't think you're ready for this..
Here we go..
Pink diamonds shining
Fuschia lust
Heart-shaped bruises
For both of us
You see me watching
The lights are low
Your body's waiting
You can't say no
[przed refren:]
Let me show you how it works..
(Lets get out of here)
I like it hard..
[REFREN:]
Come on.. Let's get out of here
I wanna take your hand and disappear
Come on.. Let's get out of here
I whisper in your ear.. "I wanna..."
You like it fast..
I like it hard
Mirrors are breaking
Vanity crush
Perfection climbing
All eyes on us
We both stop breathing
The music fades
Hands start touching
Don't be afraid..
[przed refren]
[REFREN]
You like it fast..
I like it hard
