

Jeffries Fan Club, Close Your Mind

What do I do
I saw this band
I didn't buy their tape but I wish I had
They didn't sound like everybody else
What would all the people say
Would they turn their heads and walk away
Just because I tried to be myself
Cover your ears
Close your eyes
You might enjoy yourself so close your mind
Don't let your friends see you try to be yourself
Don't even think about tryin' somethin' else
What do I do
I saw this girl
I didn't ask her out but I want to still
She didn't look like everybody else
What would all the people say
Would they turn their heads and look away
Just because her skin's another shade
