I gave you everything I've got
I know it's not a lot but I tried so hard
All the time we spent wonder where it went
Why must time move on
Why must we grow apart
Where did we go wrong
You've been gone for so long and I don't know how to move on
Where did we go wrong
You've been gone for so long and I don't know how to move on
I don't know how to move on
I remember yesterday all the good times fade away
Well I don't know where you are but I want you back
You left when times got hard
I'll let you know you broke my heart
But I'd love to have you back
Every night I dream that you come back
I wake up with a smile on my face
But I know you don't care
You are never coming back
I can't move on...
