

Jehro, Everything

Every day's made of stone
Tonight my wordless dreams slip into song
City lights I can see
Beckon to me
I'm not wastin' more time
Nooo
From far away they promise me fame
Follow them right on through

Oh I'm on the run
Tonight and every day
I want everything
Cause I want everything

Oh I'm on the run
I'm not afraid to say
I want everything
Cause I want everything

Wave your hand on the quay
I ain't comin' back this way
Cause those lights are gonna shine on me
And I will learn to say
Goodbye a thousand different ways
Gotta start out somewhere
Movin' on, movin' on now

Oh I'm on the run
By night and every day
I want everything
Cause I want everything

Oh I'm on the run
I'm not afraid to say
I want everything
Cause I want everything

If you wanna
Wanna know everything
Gotta reach inside your soul

If you wanna
Wanna know everything
Gotta face what you are shown

If you wanna
Wanna know everything
Find the place where you belong

Out on the road
The price you have to pay
If you want everything
If you want everything
