

Jem And The Holograms, I've Got My Eye On You

(Hey Babe!)

I got my eye on you, and I'm watching your every move

(Hey Babe!)

I got my eye on you, tell me what are trying to prove

You think you're hot, and you star is due

You think you've got something different and new

Well babe, I got my eye on you

And babe oh babe I think so too

(Hey babe!)

I got my eye on you, and I think you look mighty fine

(Hey babe!)

I got my eye on you, I would really love to make you mine

You think you're hot, and you star is due

You think you've got something different and new

Well babe, I got my eye on you

And babe oh babe I think so too

(Hey babe!)

I got my eye on you, and I think you look mighty fine

(Hey babe!)

I got my eye on you, I would really love to make you mine

Cuz ever since you came in view, I just can't take my eyes off you

(Hey babe!)

I got my eye on you

(Hey babe!)

I got my eye on you

(Hey babe!)

I got my eye on you
