

# Jem, Flying High

You can't know, oh no, you can't know  
How much I think about you, no  
It's making my head spin  
Looking at you, and you are looking at me  
And we both know what we want  
So close to giving in

Feel so nice, oh yeah you feel so nice  
Wish I could spend the night,  
But I can't pay the price  
Oh no, no

But I'm flying so high  
High off the ground  
When you're around  
And I can feel you're high  
Rocking me inside, it's too much to hide

I know, oh yes, I know that we can't  
Be together, but I, I just like to dream  
It's so strange the way our paths have crossed  
How we were brought together  
It's written in the stars it seems

Feel so nice, oh yeah you feel so nice  
I'd love to spend the night,  
but I can't pay the price  
Oh no, no

And I'm flying so high,  
High off the ground  
When you're around  
And I can feel you're high  
Touching me inside, and it's too much to hide

Back to earth, where did you take me to?  
I know there's no such thing  
This painless love, well it'll catch us up  
And we can never win  
But oh, I feel so alive  
Oh, just wanna hold you  
Hold you so tight

And I'm flying so high  
High off the ground  
When you're around  
And I can feel your high  
Touching me inside  
And it's too much to hide

And I'm flying so high  
High off the ground  
When you're around
