

# Jen Foster, I Just Wanna Be Happy

I don't wanna hear about your problems  
And how the world has gone to hell  
When bill collectors come calling  
I just pretend I'm someone else  
I don't wanna clean my room today  
I don't wanna turn on my tv  
I just wanna have it all my way  
It's not easy being me  
They told me if I'm late again  
Don't bother even coming in  
It looks like the drinks are on me  
I just wanna be happy, I don't wanna be sad  
I just wanna be happy, is it too much to ask?  
Just want the sun to keep shining every day of my life  
I just wanna be happy  
I don't wanna sit here in this traffic  
While everybody flips me off  
Hey, I was just honking for Jesus  
Now, c'mon, People, just lighten up  
'Cause we don't need all of these problems  
We might as well enjoy this trip  
Turn up the music, put the top down  
'Cause life is what we make of it  
You can cry or shout it out  
I just wanna laugh about it  
C'mon everybody, follow me  
I just wanna be happy, I don't wanna be sad  
I just wanna be happy, is it too much to ask?  
Just want the sun to keep shining every day of my life  
I just wanna be happy?  
Rain, rain, go away  
Never come another day  
The sun is shining all around me  
'Cause I just wanna be  
I just wanna be happy, I don't wanna be sad  
I just wanna be happy, is it too much to ask?  
Just want the sun to keep shining every day of my life
