

# Jeniffer Paige, Tell Me When

I talk to you out loud  
Driving south on Kings road  
I've got you in my coat here  
Written down  
I find new ways to want you  
But I can't reach you  
So I head downtown

It's forever later  
You're so far away  
As night becomes day  
I remember the way you held me  
Baby won't you

Tell me when so I keep believing  
Tell me again I'm on your mind all the time  
Tell me when, don't wanna lose this feeling  
Tell me again when you'll be mine  
When you'll be mine  
Tell me when

Flying standby  
On the redeye when you saw me  
You left and I heard voices in my head  
A happy accident that had to happen

A car crash in my bed

It's forever later  
You're so far away  
As night becomes day  
I remember the way you held me  
Baby won't you

Tell me when so I keep believing  
Tell me again I'm on your mind all the time  
Tell me when, don't wanna lose this feeling  
Tell me again when you'll be mine  
When you'll be mine  
Tell me when

It's forever later  
You're so far away  
I remember the way you held me, baby

Tell me when so I keep believing  
Tell me again I'm on your mind all the time  
Tell me when, don't wanna lose this feeling  
Tell me again when you'll be mine  
When you'll be mine  
Tell me when
