

# Jennifer Day, Fearless

(Jennifer Day/Blair Daily/Kent Blazy)

So scared  
Reaching out for a helping hand  
And it's not there, I'm alone  
Shaking  
Just need to keep my nerve  
From breaking  
It's almost gone  
The darkness surrounds me  
Im my heart I fell the light  
One small step, one deep breath  
And everything gonna be all right

Every time that I survive  
I feel little more alive  
And I know who I am  
It just makes me stronger  
It's a faith within myself  
Don't depend on no one else  
If I believe and I believe  
Someday I'll be fearless

Learning  
That if I fail, If I fall  
Well world keeps turning  
Round and round  
Knowing  
If I let go and trust my intuition  
It won't let me down  
I'm takin' my chances  
I'm finding more of me each day  
I'll face fear without fear  
I'll conquer whatever comes my way

Every time that I survive  
I feel little more alive  
And I know who I am  
It just makes me stronger  
It's a faith within myself  
Don't depend on no one else  
If I believe and I believe  
Someday I'll be fearless
