

# Jennifer Ellison, Bye Bye Boy

Bye bye boy

Never give up x3  
That's what my mama told me  
Take another chance x3  
Would be right thing for me now  
I... I get the feeling that maybe my mind could have been wrong

Everyday x3  
I'm learning things about you  
Everynight x3  
I've learned to be without you now  
I... I get the feeling tat maybe it's time for me to move on

I wasn't lonely before I met you  
Now you make me feel like I don't know what to do  
Things are gonna change  
And there's something that I've got to say to you

(Chorus)  
Bye bye baby  
You've got to understand  
You're acting like a boy but I'm looking for a man  
Bye bye honey  
You've got to make me see  
You say you're gonna try but it's not enough for me  
I hope you get the message  
I'm gonna tell you bye bye boy

Everytime x3  
You say you're gonna try  
You do it again x3  
Can't tell the truth from lies but now  
I... I get the feeling that you're playing the game and just leading me on

Maybe I'm wrong x3  
Could be mistaken boy I've  
Gotta move on x3  
Cause I know my heart is breaking now  
I... I get the feeling that time has come to make me number one

I wasn't lonely before I met you  
Now you make me feel like I don't know what to do  
Things are gonna change  
And there's something that I've got to say to you

(Chorus)

I wasn't lonely before I met you  
Now you make me feel like I don't know what to do  
Things are gonna change  
And there's something that I've got to say to you

(Chorus)
