

Jennifer Love Hewitt, It's Good To Know I'm Alive

[Chorus:]

You make me smile

Everybody needs and little sunshine and when i do your always there with my suprise

Its good to know that I'm alive

You make me sing

Everybody's lookin for an answer with a metaphysical ring, can you take me out there?

It's good to know that I'm alive

Caught up in the middle of a lovely, lovely day

And did you ever get the blues and think they'd never go away

And then your life is big fat dude who just stopped by to say,

There's a lesson to be learned and everybody's gotta pay

[Chorus]

Now you got your crazy wisdom to life to solve the night

You've been walking that high wire baby without a man insight

You believed in reincarnation, but that was in another life

Well, like the bible said be happy, it's ok to change your mind.

[Chorus]

You make me smile

Everybody needs, needs a little something

Its good to know that I'm alive, I'm alive

You make me sing

Everybody needs, needs a little something

Its good to know that I'm alive, I'm alive...[fades out]
