

# Jennifer Love Hewitt, Just Try

didn't want to then we kissed  
i didn't want you but i did  
i said it's gone too fast but baby i lied.  
if i do some things i never would  
doesn't mean i'm not so good  
what about the way i feel inside?

if i run away it's not gonna work this time  
i gotta stay, everything's gonna be alright

chorus  
don't talk about it worry so much  
try to figure out what's gonna  
happen gonna happen here tonight  
don't think too much don't try too hard  
it's alright if it goes too far  
now is not the time to question why  
just try  
just try

it's time to throw away the plan  
whatever happens depends  
i don't need to know the end this time  
i've played it safe with u before  
aren't you tired of leaving wanting more  
i think tonight we're seeing eye to eye

i thought i'd run away  
it's not gonna work this time  
i want you to stay  
everything's gonna be alright

chorus

i'm a little afraid of where this is gonna lead  
but i've made up my mind  
tonight is the night

chorus x2

don't you talk about it  
just try  
just try
