

# Jennifer Love Hewitt, Never A Day

Don't go standing there  
Blocking my view  
And spoiling my night  
You know why we're here  
She's an old flame  
I'm trying to light

And if beauty sleep can really work  
She must have just woken up  
So rub your eyes  
Cause seeing is believing

Never a day goes by without something  
Stopping me hard in my tracks  
I could be happy  
And they'll never know it  
Till never a day comes back

If words alone sound cheap  
When I come around  
You'll want to be out  
I want that window seat  
If I'm going down,  
I want see out

And she's happy now  
I'm going home  
Another day, another cruel reminder

Never a day goes by without something  
Stopping me hard in my tracks  
I could be happy  
And they'll never know it  
Till never a day comes back

Never a day goes by without something (never a day goes by)  
Stopping me hard in my tracks (stopping me hard in my tracks)  
I could be happy  
And they'll never know it  
Till never a day comes back

Could be a song on the radio  
Could be that feeling so long ago  
Could be that accidently photo I find  
When I'm looking for something else

But I found you

Never a day goes by without something (never a day by)  
Stopping me hard in my tracks (stopping me hard in my tracks)  
I could be happy  
And they'll never know it  
Till never a day comes back (never a day goes by)

Never a day goes by without something (never a day by)  
Stopping me hard in my tracks (stopping me hard in my tracks)  
I could be happy  
And they'll never know it....
