## Jenny Lewis, Bad Man's World

Its a bad man's world Its a bad man's world Its a bad man's world

Its a bad man's world Its a bad man's world Its a bad man's world

Was I born as a promise to keep the peace Or meet the shame? Before you split, one thing left To give me my ordinary name Give me my ordinary name

Now that Im still standing Ive got something left to prove Got a bullet left, but I cant decide Which scorpion Im going to shoot Will it be me, will it be you?

Its a bad man's world Its a bad man's world Its a bad man's world

Its a bad man's world Im a bad, bad girl Its a bad man's world

I will never forgive you For what you put us kids through Remember that night You tried to take your own life? When I found you You were a shade of blue Success is a state of mind With a little bit of follow through And then you failed at that, too

Its a bad mans world Its a bad mans world Its a bad man's world

Its a bad man's world Im a bad, bad girl Its a bad mans world

Will it be me, will it be you?

Its a bad man's world Its a bad man's world Its a bad man's world

Its a bad man's world Im a bad, bad girl Its a bad mans world
