

Jenny Lewis, Trying My Best To Love You

Our love is sweeter than strings
Our love is thicker than angel wings

But still sometimes I can't believe you're real
It's just that I've got diamonds in my eyes for you

Our love is simple
Our love is crystal

But still sometimes you cannot help yourself
You step outside and hear bells ringing
For you, for you

Trying my best to love you
Trying my best to love you
Trying my best to love you
They make it so hard on us baby
It's so hard on us baby

I want you back my baby
I want you back in my arms
I want you back right now
They make it so hard on us baby
It's so hard on us baby

Trying my best to love you
Trying my best to love you
Trying my best to love you
They make it so hard on us baby
It's so hard on us baby
It's so hard on us baby
It's so hard on us baby
