## Jens Lekman, Pocketful Of Money

I've got my pockets full of money I'm gonna spend it all tonight I've got my pockets full of money I'm gonna spend it all tonight

A whole months salary Gonna set it to flames on some girl I just met recently I barely know her name

Take me some place decent Where we meet up with your friends Where the people are pleasant Where the music never ends Where the music never ends

I can't say that you are pretty
That would make me a liar
but you turn my legs to spaghetti
and set my heart on fire
You set my heart on fire
You set my heart on fire

I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire

Set my heart on fire You set my heart on fire

I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire

I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire I'll come running with a heart on fire

I'll come running with a heart on fire
