

Jens Lekman, Run Away With Me

What are you gonna do on Christmas Eve
Please don't spend it with your family
I know you love your mommy
But she's more like a mummy
She's so empty,
She's so empty
So run away with me
She's so empty
She's so empty
So run away with me
Yeah I know it's been a bad year
And I can trace every tear
Back to your little life
But I can see a future for you and I
Because we're not empty
We're not empty
So run away with me
We're not empty
We're not empty
So run away with me now baby
