

Jeremy Kay, Only One

Don't know what it's all about
But I have no doubt it's something
True and simple (it's very simple)
Like a sunny day (like a sunny day)
I wouldn't give away
One minute with you (not a minute with you)

Cause you're the only one that ever knew me at all
Played around and then I left you hangin' on the wall
You have always been the one,
Stimulate my mind
When I'm around
I don't look, I just find

You say
What is mine is yours
Open all the doors,
And come on inside
Tell me, are you comfortable (relax)
Is your belly full
Are you feeling all right?

Cause you're the only one that ever knew me at all
When I was feeling down, you made me stand up tall (so I stand up tall)
You have always been the one,
To give me peace of mind
When I'm around
I don't look, I just find
I don't look, I just find

Play me all my favorite songs
And I can sing along, yeah

Dance now, dance if you want to,
Won't you let it flow right through
There's nothing I would rather do

Cause you're the only one that really knew me at all,
Laid around and then I left you hangin' on the wall
You have always been the one to stimulate my mind
When I'm around I don't look, I just find.
I don't look, I just find

What you want, go and get it
Go right out,
Go right out and get it.
