

Jeremy's, White Trash

You said you'd do something about it.
But if you really will I doubt it
you got a false grin on your face sir
why can't you give us what we've asked for
That's a big house with high ceilings
it makes me think you got the feeling
although you're way too dumb too make it
a lot of money compensates it.

I got this feeling in my bones
jumping all around
you're just saying
stuff we wanna hear
makes me wanna shout
mister big talk
little white trash fool

If you were more than just a liar
we would think twice 'fore starting fires
now I suggest you take off run home
back to your crib and leave us alone
I hope someday somehow you'll find out
That car and house ain't what it's about
But then again I guess you'll never
be that bohemian or clever.
