

# Jericho Jones, Junkies, Monkeys & Donkeys

Now the evening sun is goin' down  
A black shadows cover wasted ground  
But I never thought I've been that kind of man  
But I know that I am.

But I never thought I've been a junky  
That's I always shootin' my time away.

Early morning sun is very high  
Oh, shadows of my body burns my mind  
But I never thought I've been that kind of man  
But I know that I am.

But I never thought I've been a monkey  
Since I have reason to lost and I count them a high.

If I should wake up in some other place  
Oh, what heat spirit in my lonely face  
But I never thought I've been that kind of man  
To become a soldier.

But I never thought I've been a donkey  
Puttin' away that's crowd mMake to you in town.

Yeah-yeah, yeah-yeah  
Help me, baby.

But I never thought I've been that kind of man, ah-ah-ha  
But I never thought I've been a junky, yeah  
But I never thought I've been a monkey  
But I never thought I've been, I've been a donkey, yeah.

Uh, oh.

"That's right."
