

Jericho Jones, Yellow And Blue

There is my life
And I shall do my scene
I've seen that people passing by
Who can they be?
What can they've seen?

I saw the King and Queen today
In the yellow and blue
Yellow and blue
I'm tellin' you
I saw the King and Queen today.

And then they laugh
When they're movin', I'll cry
I know they're tryin' to be free
Where did I go?
What do I know?

I know a place I'll always be
It's the yellow and blue
Yellow and blue
I'm tellin' you
It's not they say it'll always be.

And I need some help
To get back home
And I need some help
To get back home.

And I need some help
To get back home
And I need some help
To get back home.

And I need some help
And I need some help
And I need some help
To get back home
To get back home
To get back home... again.

And I need some help
And I need some help
And I need some help
To get back home.
