

Jericho, Sex Is Love?

It's logical to give you what you want
Emotional 'cause you'll need me more
So tell me...

Sex or love, which do you need?

Relationships, fuel my greed

Love and lust, they are one

When everything comes undone

Don't you know, sex is love?

Don't you know, sex is love?

Political is everything that's said

So critical that you're not misread

You tell me...

Sex and love - things you need -

Relationships, guaranteed

But promises, I will break

Unfaithfulness, you can't take

Don't you know, sex is love?

Don't you know, sex is love?

Why should I stay pure?

Just for once, admit that I am your religion

Is there nothing else above you than to be loved?

Don't you know... Don't you know that

Your pedestal's where I stand?

My capital coats your hand

Sex for gold, all your greed

You sell yourself for what you need

Don't you know, sex is love?

Don't you know, sex is love?

Don't you know, sex is love?

Don't you know, sex is love?
