

# Jerks Circle, I Hate People Like That

Don't you want me  
I'd like it more if you'd just save me  
But I forget the reason why you think I should care  
It's not my problem  
I call you when I want some  
But I forget the reason why you think I should care

I hate people like that  
Cause people like that  
Treat you like that  
When you got something  
I hate people like that  
Cause people like that  
Treat you like that  
(When they want something)

It's like a psycho  
I try to talk about it. What? No...  
You wouldn't listen when I said it all gets better  
It's time to let it go  
You're only breathing cause I say so  
And I can tell you that it still won't get much better

I hate people like that  
Cause people like that  
Treat you like that  
When they want something  
I hate people like that  
Cause people like that  
Treat you like that  
When you got something

I hate people like that  
Cause people like that  
Treat you like that  
You got to push up and stand  
You got to push yourself then

Now your frozen  
Caught in the headlights of the chosen  
But I'll still be here baby when it all gets better  
Hey man that's way cool  
Face down amongst the seesspool  
Now all the bitches in the world won't make you better

I hate people like that  
Cause people like that  
Treat you like that  
When they want something  
I hate people like that  
Cause people like that  
Treat you like that  
When you got something

I hate people like that  
Cause people like that  
Treat you like that  
When you got something  
I hate people like that  
Cause people like that  
Treat you like that  
Treat you like that

I hate people like that

When people like that  
Treat you like that  
You got to push up and stand  
You got to push yourself then

They say lifes what you make it (11x)
