

# Jerome Price, Me Minus You

I was caught on a four letter word, didn't worry 'bout where or why  
Didn't hear the things I should've heard, I was counting stars in your eyes

Baby, when you gonna be home?  
Lately, I've been feeling alone  
Maybe, It's just all in my mind

Who'd've know, Daily, You weren't even alone  
Shady, made me think I was so crazy  
All along I was right

Chorus

'Cos I finally went a did the math  
So you can take your heart and put it back  
I was falling for you like a fool  
Now it's adding up, yeah it's adding up in to, to

Me minus, me minus you  
Me minus you  
Me minus, me minus you, you  
Me minus you  
/2x

Guess those cold nights on your own can burn  
Since you're standing here on my step  
But consider me a lesson learned  
You are better off saving your breath

Baby, I just want to come home  
Lately, I've been feeling alone  
Maybe, I can make it alright

But you won't get me, I got somebody here  
With me, really you must be so crazy  
I'm not changing my mind

'Cos I finally went a did the math  
So you can take your heart and put it back  
I was falling for you like a fool  
Now it's adding up, yeah it's adding up in to, to

Me minus, me minus you  
Me minus you  
Me minus, me minus you, you  
Me minus you  
/2x

Now I finally went and did the math  
You can take your heart and put it back  
I was falling for you like a fool  
Now it's adding up, yeah it's adding up ow

'Cos I finally went a did the math  
So you can take your heart and put it back  
I was falling for you like a fool  
Now it's adding up, yeah it's adding up in to, to

Me minus, me minus you  
Me minus you  
Me minus, me minus you, you  
Me minus you  
/2x
