

Jerry Cantrell, Thanks Anyway

Happy new day - does it matter?
Thinning go low, hight get fatter
Well I'm flattered

Joke... pissboy - ain't he a sight?
Don't remember who won the fight
Well I got it right

How could you know for me what's right?
Can't live for me, oh and you can't die, right?
Thanks for trying

Torn today, sweaty pillow
Hawaii jet plane, sit by window
Where did time go?

How could you know for me what's right?
Can't live for me, oh and you can't die, right?
How could you know for me what's right?
I depreciate, you search and I hide...
But thanks for trying

I won't forget it, it'll kill us if we let it
And I don't want to regret it, still burning since we set it

How could you know for me what's right?
Can't live for me, oh and you can't die, right?
How could you know for me what's right?
I depreciate, you search and I hide...
But thanks for trying
