

Jerry Folk, Life Under Water (feat. Nevve)

Unloved, unafraid, unaware, unconsidered
Listen here, little girl, you gotta be bold
Hurry along, don't delay, everything will be delivered
All that you gotta do, you gotta be strong

It's starting out again
And I can't get down any longer
And out again
I can't get down

Tell me, do you, believe?
'Cause I can't get down any longer
Dark has been a mystery
We're slipping through life under water

Tell me, do you, believe?
'Cause I can't get down any longer
Dark has taken all of me
We're slipping through life under water
[Lyrics from: <https://lyrics.az/jerry-folk/-/life-under-water.html>]

In between inner peace, inner strength, and religion
I've seen everything there is to behold
Lip to lip, face to face, making every bad decision
Hurry now, from the crowd, we're getting old

It's starting out again
And I can't get down any longer
I'm out again

Tell me, do you, believe?
'Cause I can't get down any longer
Dark has been a mystery
We're slipping through life under water

Tell me, do you, believe?
'Cause I can't get down any longer
Dark has taken all of me
We're slipping through life under water
