

# Jerry Reed, Almost Crazy

I'm almost crazy almost crazy  
Couldn't go to sleep last night walked the floor until the daylight  
Thinkin' how it used to be when you were here with me  
And honey I'll live with your memory till I'm almost crazy almost crazy  
I've paid a million times for the way I've been so blind  
Cause everytime I think of you my heart wants to break in two  
And I'm no notning nothing but the blues till I'm almost crazy hmm  
I thought I didn't need your love to share hmm  
I had to lose you to find out how much I care now I'm almost crazy almost crazy  
I see the fool I've been and if I'd get you back again  
Well I'm gonna prove to you that my love is really true  
Cause honey I've cried and cried for you till I'm almost crazy almost crazy  
I'm almost crazy
