

Jerry Reed, Almost Crazy

I'm almost crazy almost crazy
Couldn't go to sleep last night walked the floor until the daylight
Thinkin' how it used to be when you were here with me
And honey I'll live with your memory till I'm almost crazy almost crazy
I've paid a million times for the way I've been so blind
Cause everytime I think of you my heart wants to break in two
And I'm no notning nothing but the blues till I'm almost crazy hmm
I thought I didn't need your love to share hmm
I had to lose you to find out how much I care now I'm almost crazy almost crazy
I see the fool I've been and if I'd get you back again
Well I'm gonna prove to you that my love is really true
Cause honey I've cried and cried for you till I'm almost crazy almost crazy
I'm almost crazy
